

Joe Bentley

Profile

For the past 5 years I have been privileged to travel the world performing as a Showteam Leader and Dance Captain for TUI Cruises. I performed and danced in evening shows to in excess of 1,000 people regularly. Additionally, I led and managed teams through daily rehearsals and successful performances. Performing is my passion, but the job required other skills including organisational, administrative and technical skills.

From an early age I developed a keen interest in computing both hardware and software and this has continued to the present day, leading to a desire to progress and boost my knowledge in software application development. The recent pandemic led me to seek out relevant courses to further my career in this field.
